Keeping Employees Engaged Through Crisis

Sunday, August 8, 2021 • 9:30 am – 10:45 am

The impact of COVID-19 has profoundly changed business as we know it. Not only did manufacturers have to change many of their work practices, but employees have found they have lots more options when it comes to how, when, and where they work.

Organizations that come out of this pandemic successfully are the ones that integrate and master digital work, community, and collaboration. And yes, this does go for manufacturing plants. Workers may still have to show up to run production, but their mindset has probably expanded to adjust and adapt to new ways of using technology and communicating with each other and with leadership. It's essential for you to have strategies to help employees deal with the fear, frustration, and uncertainty of the new work environment.

Biography:

Lisa is a Certified Speaking Professional, award-winning speaker, and best-selling author of ten books, including "Manufacturing Engagement: 98 Proven Strategies to Attract and Retain Your Industry's Top Talent." She has served on the boards of the American Welding Society, Cleveland Chapter, the National Speakers Association, Ohio Chapter and has her MBA from Cleveland State University. She and her husband, Scott, are the proud parents of two very spoiled cats.

Featured Speaker: Walt Smith

The Longest Ride: Succession Planning for Family Businesses

Sunday, August 8, 2021 • 11:00 am – 11:45 am

Winner of the 2016 PMA Lifetime Achievement Award, Walt Smith, will be joining us at the 2021 Annual Meeting to discuss succession planning. The Lifetime Achievement Award is PMA's highest award for esteemed individuals who, throughout their careers, have made extraordinary contributions to the success and stature of the PMA or the polyurethane elastomers industry. Walt was named Iowa Small Business person of the year in 1995 by SBA and honored in person by the President. PMA Past President and active member, Walt Smith, will share his experience for succession planning for family businesses. He has extensive insight into a wide range of company operations and will share perspective from a high-level standpoint on the main stage. Make sure to sit in on one of his afternoon sessions where he will dive further into details.

General Session Speaker: William McKee

How to Win at Internet Marketing

Monday, August 9, 2021 • 1:00 pm – 1:45 pm

Winning the attention and creating new opportunities for sales is the promise of digital marketing. Realizing this promise takes more than marketing strategies and Search Engine Optimization (SEO) tactics. It takes leaders who understand the role that digital marketing plays in reaching and engaging their audiences. We'll be hearing and learning from a 25-year internet marketing veteran about the three plays needed to win at digital marketing.

John Jarvis Golf Outing

This is a fundraiser to support the Mother Cabrini Hospital in Chicago, who cared for PMA Member John Jarvis during his battle with cancer. The location of the John Jarvis Golf Outing is still being finalized. Further information can be found on pmahome.org.

Technical Papers and Posters

Technology is a driving force in the cast urethane industry, leading to new processes and products, refining the established ones, maximizing investments in time, money, talent and materials. Join your peers in staying on top of the trends and ground-breaking discoveries with Technical Paper presentations and poster viewing.

Failed Parts Competition

Teams will evaluate failed parts submitted by PMA members to determine their mode of failure. While the teams compete, an overview of each part will be discussed as well as general failure mechanisms. After discussion, a winning team will be chosen. The room will be open to watch and learn, as well.

Regulatory Information

PMA's Legal Counsel, Don Gallo, joins the EHS-Regulatory and Advocacy Committees to present critical safety and regulatory updates. Tailored specifically for the cast polyurethane market, member companies will learn to comply with government regulations and promote safety, health and the responsible use of chemicals.

Breakout Sessions

Returning this year are breakout sessions! Four interesting topics have been selected representing some of the challenges facing our member companies today. Pick one or two that are most interesting to you, and pull up a chair to seek wisdom and share best practices with your industry peers.

Session 1: Sunday, August 8, 12:45 pm – 1:25 pm
Session 2: Sunday, August 8, 1:35 pm – 2:15 pm

Please be mindful of company information during discussion. Confidential information regarding product, data regarding cycle times, salary, etc. should not be disclosed. Discussions will be centered around high level ideas that have succeeded and challenges during implementation.

For more information and a full description of the Breakout Sessions please visit pmahome.org.
